High Purity Chemicals for Research and Production

## Capabilities Statement

Noah Technologies is a manufacturer of high-purity chemicals for research and production. We are the leader in creating custom chemical products used in new emerging technologies. All material is produced under strict quality control providing traceability and documentation for all operations utilizing the most modern methods of production and analysis. Founded in 1978, New York, a privately held woman-owned small business moved to Texas in 1985 to expand its manufacturing capabilities and product portfolio.

### Past and Current Performance

#### Department of Energy

- West Valley Demonstration Project
- Hanford Waste Treatment & Immobilization Plant

#### National Labs

- Argonne National Lab
- Idaho National Lab
- Lawrence Livermore National Lab
- Pacific Northwest National Lab
- Sandia National lab
- Savannah River National Lab

#### Department of Defense

- Anniston Chemical Agent Disposal Facility
- Pine Bluff Chemical Disposal Facility
- Tooele Chemical Disposal Facility
- Umatilla Chemical Disposal Facility
- Crane Army Ammunition Activity
- US Army Research Laboratory
- Corpus Christi Army Depot
- Research, Development and Engineering Command
- Army Geospatial Center

#### NASA

- NASA Glenn Research Center
- NASA Goddard Space Flight Center

**NAICS Codes:** 325180, 541715, 325998

**PSC / FSC:** 6810, 6850

**DUNS Number:** 09-559-4495

**CAGE Code:** 61665

**Technical Manager:** Kelly Sellers [ksellers@noahtech.com](mailto:ksellers@noahtech.com)

**Company QMS:** ISO 9001:2015

Certificate Registration No. 10001566

### Core Competencies / Differentiators

- Strong QMS in place which provides for good quality control of products shipped to customers, providing traceability of all products from the time the raw materials are received at our facility until the final product ships to the customer.
- Superior sales department provides excellent customer service, working with each customer to ensure that all requirements of their orders are met.
- Custom quantities / packaging to meet customer's requirements
- Leader in creating custom chemical products used in new emerging technologies
- Extensive catalog of thousands of inorganic chemicals
- Custom manufacturing to customers formulations / specifications
- Offer consulting services and technical information assistance during the development process
- Outstanding OSHA 300 record
- Core management has over 100 years combined experience in specialty inorganic chemicals
